

Health and Safety Statement – General Statement of Policy

Our policy is to provide and maintain safe and healthy working conditions, equipment and systems of work for all our employees and a safe early learning environment in which children are cared for and learn. We provide information, training and supervision to meet this purpose and we wish to develop and promote a strong health and safety culture within the nursery for the benefit of all staff, children and parents. We also accept our responsibility for the health and safety of other people who may be affected by our activities.

The allocation of duties for safety matters and the particular arrangements which we will make to implement the policy are set out within this policy and sufficient resources will be made available to honour our commitment.

The policy will be kept up-to-date, particularly as the nursery changes in nature and size and will be revised annually, or as and when required. We therefore welcome any useful comments from members of staff, parents and visitors regarding this policy.

Aims and objectives

The aim of this policy statement is to ensure that all reasonably practical steps are taken to ensure the health, safety and welfare of all persons using the premises.

To achieve this we will actively work towards the following objectives:

- Establish and maintain a safe and healthy environment throughout the nursery
- Establish and maintain safe working procedures amongst staff and children
- Make arrangements for ensuring safety and the absence of risks to health in connection with the use, handling, storage and transport of hazardous articles and substances
- Ensure the provision of sufficient information, instruction and supervision to enable all people working in or using the nursery, to avoid hazards and contribute positively to their own health and safety and to ensure that staff have access to regular health and safety training
- Maintain a healthy and safe nursery and safe entry and exit from it

- Follow the regulations of the Health & Safety at Work Act 1974 and any other relevant legislation
- Maintain a safe working environment for pregnant workers or for workers who have recently given birth including undertaking appropriate risk assessments
- Maintain a safe environment for those with disabilities and ensure all areas of the nursery are accessible (wherever practicable)
- Provide a safe environment for students or trainees to learn in
- Encourage all staff, visitors and parents to report any unsafe working practices or areas to ensure immediate responses by the management.

We believe the risks in the nursery environment to be low and we will maintain the maximum protection for children, staff and parents. The nursery will:

- Ensure all entrances and exits from the building, including fire exits, remain clear at all times
- Regularly check the premises room by room for structural defects, worn fixtures and fittings or electrical equipment and take the necessary remedial action
- Ensure that all staff, visitors, parents and children are aware of the fire procedures and regular fire drills are carried out
- Ensure that all members of staff are aware of the procedure to follow in case of accidents for staff, visitors and especially children

- Ensure that all members of staff take all reasonable action to control the spread of infectious diseases and wear protective gloves and clothing where appropriate
- Prohibit smoking on the nursery premises
- Prohibit any contractor from working on the premises without prior discussion with the officer in charge
- Prohibit running inside the premises unless in designated areas
- Risk assess all electrical sockets and take appropriate measures to reduce risks where necessary and ensure no trailing wires are left around the nursery
- Ensure all cleaning materials are placed out of the reach of children and kept in their original containers
- Wear protective clothing when cooking or serving food
- Prohibit certain foods, e.g. peanuts are not allowed in the nursery
- Ensure risk assessments are undertaken on the storage and preparation of food produce within the nursery
- Familiarise all staff and visitors with the position of the first aid boxes and ensure all know who the appointed first aiders are
- Ensure children are supervised at all times
- Ensure no student is left unsupervised at any time.

Responsibilities

Responsibility for Health and Safety in the nursery is that of SARAH BUCKLEY .

The Owner and Manager has a responsibility for this policy being carried out at:

Little Penguins
Unit 2, 53 Kingsway South
Latchford
Warrington
WA4 1LQ

The Deputy Nursery Manager will be responsible in his/her absence.

All employees have the responsibility to co-operate with senior staff and the manager to achieve a healthy and safe nursery and to take reasonable care of themselves and others. Neglect of health and safety regulations/duties will be regarded as a disciplinary matter.

Whenever a member of staff notices a health or safety problem, which they are not able to rectify, they must immediately report it to the appropriate person named above. Parents and visitors are requested to report any concerns they may have to the *senior member of staff in the area.

Daily contact, monthly staff meetings and health and safety meetings provide consultation between management and employees, this will include health and safety matters.

Health and safety training

Person responsible for monitoring staff training is Julie Stockton

Training table (example):

Area	Training required	Who
First aid	Course	All staff
Dealing with blood	In house training/course	All staff and students
*Safeguarding/*Child protection	In house training/course	All staff and students
Risk assessment	In house training/course	All staff

Fire safety procedures	In house training	All staff and students
Use of fire extinguisher	In house training/course	All staff where possible
Manual handling	In house training/course	All staff and students
Stress awareness and management	In house training/course	All staff
Changing of nappies	In house training	All staff and students
Fire warden duties	External course	Fire Warden

At least one member of staff on duty MUST hold a full paediatric First Aid at Work certificate.

Health and safety arrangements

- All staff are responsible for general health and safety in the nursery
- Risk assessments will be conducted on all areas of the nursery, including rooms, activities, outdoor areas, resources and cleaning equipment
- All outings away from the nursery (however short) will include a prior risk assessment – more details are included in our outings policy
- All equipment and areas will be checked thoroughly by staff before children access the area. These checks will be recorded in each room and initialled by the staff responsible. All unsafe areas will be rectified by this member of staff to ensure the safety of children, if this cannot be achieved the manager will be notified immediately
- We provide appropriate facilities for all children, staff, parents and visitors to receive a warm welcome and basic care needs, e.g. easy to access toilet area and fresh drinking water
- The nursery will adhere to Control Of Substances Hazardous to Health Regulation (COSHH) to ensure all children, staff, parents and visitors are safe around any chemicals we may use on the premises
- All staff and students will receive appropriate training in all areas of health and safety which will include risk assessments, manual handling and fire safety
- We have a clear accident and first aid policy to follow in the case of any person in the nursery suffering injury from an accident or incident
- We have a clear fire safety policy and procedure which supports the prevention of fire and the safe evacuation of all persons in the nursery. This is to be shared with all staff, students, parents and visitors to the nursery
- All health and safety matters are reviewed informally on an ongoing basis and formally every six months or when something changes. Staff and parents will receive these updates as with all policy changes as and when they happen
- Staff and parents are able to contribute to any policy through the suggestion scheme and during the regular meetings held at nursery.

Covid 19

Risk assessment: We will carry out and continue to review our COVID-19 risk assessment.

This assessment directly addresses risks associated with coronavirus (COVID-19), so that the right measures can be put in place to control those risks for children, their families and staff.

We are aware that HSE has stated that inspectors will carry out spot checks to see how well businesses are complying with health and safety law, and the obligation to control the risk from COVID-19 to workers and the public. This could include site visits, phone calls and the collection of supporting visual evidence, such as photos.

We will consult all employees on health and safety, so they are best placed to understand the risks in nursery.

We ensure all staff, parents and visitors are familiar with the risk assessment.

Social distancing: The early years sector know that unlike older children and adults, babies and young children cannot be expected to remain two metres apart from each other and staff. The government guidelines acknowledge this through advising grouping measures that are in place. Although there is no longer a requirement to keep children in 'bubbles', addendums to policies and procedures have been put in place to help minimise the risk of infection through avoiding contact with anyone with symptoms, frequent hand cleaning and good respiratory hygiene practices; regular cleaning of settings, minimising contact and mixing of different rooms/age groups, where possible.

COSHH assessment: We will ensure that a COSHH assessment is completed for any intended use of bleach and disinfectant products used on site.

Personal protective equipment (PPE): Government guidance is that PPE is not required for general use in early year's settings to protect against COVID- 19 transmission. PPE will be continued to be worn as normal for nappy changing and the administration of paediatric first aid.

PPE will also be worn by staff caring for a sick child while they await collection if a distance of two metres cannot be maintained (such as for a very young child or a child with complex needs). This includes a specific type of mask and eye shield. Where appropriate staff will be provided with adequate training on the use of PPE.

Face covering: During everyday practice, staff and children will not be asked to wear face coverings as per the government guidelines. It is for providers to decide if staff should wear these in situations where social distancing between adults in settings is not possible (e.g. when moving around in corridors and communal areas). Settings may also decide to ask parents/staff to wear face covering at drop off and collection.

There is a process for when face coverings are worn and how they should be removed, including allowing for adjustments to be made for adults with Special Educational Needs and Disabilities (SEND) who may be distressed if required to remove a face covering against their wishes.

Safe wearing of face coverings requires the cleaning of hands before and after touching, including to remove or put them on, safe storage of them in individual, sealable plastic bags between use and staff disposing of them if they becomes damp.

Essential supplies: We will ensure an adequate supply of essential supplies by ordering in advance. Contingency plans are in place to minimise the impact of any shortages of supplies. The setting will not be able to operate without essential supplies required for the management of infection control.

A monitoring system for the usage of PPE is essential to ensure that a supply of stock is available to all who require it, as and when required to meet the operational needs of the setting.

In case the supply of food is interrupted, procedures will be implemented to ensure appropriate and sufficient food alternatives are sourced, and normal food safety, and hygiene, processes are followed.

Coronavirus testing: We will ensure that we follow the NHS Test and Trace process and contact the dedicated advice service introduced by Public Health England (PHE) and delivered by the NHS Business Services Authority. This can be reached by calling the DfE Helpline on 0800 046 8687 and selecting option 1, for advice on the action to take in response to a positive case.

We will ensure that staff members and parents/carers understand that they will need to be ready and willing to:

- Book a test if they are displaying symptoms. Staff and children must not come into the setting if they have symptoms, and must be sent home to self-isolate if they develop them in the setting. All children can be tested, including children under 5, but children under 11 will need to be helped by their parents or carers if using a home testing kit
- Provide details of anyone they have been in close contact with if they were to test positive for coronavirus (COVID-19) or if asked by NHS Test and Trace
- Self-isolate if they have been in close contact with someone who tests positive for coronavirus (COVID-19) symptoms.

Settings should ask parents, carers and staff to inform them immediately of the results of the test:

If someone tests negative, and they feel well and no longer have symptoms similar to coronavirus (COVID-19), they can stop self-isolating. They could still have another virus, such as a cold or flu – in which case it is still best to avoid contact with other people until they are better. Other members of their household can also stop self-isolating.

If someone tests positive, we are still following guidelines to stay at home and isolate with possible or confirmed coronavirus (COVID-19) infection and must continue to self-isolate for at least 5 days from the onset of their symptoms and then return to the setting only if they do not have symptoms other than cough or loss of sense of smell or taste. This is because a cough or anosmia can last for several weeks once the infection has gone. The 5-10 day period starts from the day when they first became ill. If they still have a high temperature, they should keep self-isolating until their temperature returns to normal. Other members of their household/**support bubble or childcare bubble** should continue to follow the Government Guidelines..
